Zones of Theoretical Visibility (ZTV)

- New Access Tracks ZTV
- Construction Tracks ZTV
- Existing Tracks to be Upgraded ZTV
- Wind Farm Access Tracks ZTV

NOTES

Zone of Theoretical Visibility (ZTV) has been generated using Ordnance Survey Terrain 5 digital terrain model which does not take account of the screening effects of vegetation, buildings or other structures.

The ZTV is based upon a series of points at 50m intervals along the proposed access tracks. Assessed with 2m high vehicles and an observer eye height of 1.6m.

All measurements are above ground level (AGL) unless specified otherwise.
